From: Kseniia Fursenko, KFursenko Candle Owner

Subject: Letter of Recommendation Kseniia Rostovskaia

To: Whom It May Concern

It is my pleasure to recommend Kseniia who developed the e-commerce platform for my candle brand “KFursenko Candles”.

From our very first conversation, Kseniia took the time to listen and understand my vision. She asked the right questions, walked me through different options, and made sure I felt heard at every step of the process. She never pushed a single solution; instead, she presented several approaches and helped me choose what made the most sense for my brand and my customers.

What surprised me most was how Kseniia helped me see possibilities I hadn't imagined for my project - shaping it into something modern, intentional, and aligned with what today's customers expect. She had a rare ability to translate my instincts into a clear direction, and throughout the process I felt carried with such care and confidence that I never once doubted my decision to work with her.

The result speaks for itself. Kseniia built a beautiful, fully functional store with a seamless checkout experience and an AI-assistant that helps customers discover the right products. Throughout the project, she was responsive, professional, and genuinely invested in getting things right.

I am grateful to have worked with someone who treated my business as her own. Kseniia has my full recommendation.

Please feel free to reach out if you require any additional information.

Sincerely,
Kseniia Fursenko
“KFursenko Candle” Owner
